

ITALY

2018 NPT PREPARATORY COMMITTEE

**CLUSTER II
REGIONAL ISSUES**

**STATEMENT BY
H.E. AMBASSADOR GIANFRANCO INCARNATO**

**PERMANENT REPRESENTATIVE OF ITALY
TO THE CONFERENCE ON DISARMAMENT**

(GENEVA, 30 APRIL 2018)

Check against delivery

Mr. Chair,

Italy aligns itself with the statement delivered by the European Union. I would like to add some remarks in my national capacity.

Mr. Chair,

Italy recognizes the progresses made so far in addressing proliferation risks. At the same time, we remain seriously concerned by the existence of proliferation programs and networks. The difficulty of securing sensitive materials and the risk that terrorists might get access to them remain major challenges to deal with.

The nuclear and ballistic missile programs of the DPRK remain a source of extreme concern. Italy condemns in the strongest terms the DPRK's ballistic missile and nuclear tests, which clearly violate its international obligations and represent an increasing threat to regional and international security, peace and the global non-proliferation regime. While highly welcoming ongoing diplomatic efforts to reach a peaceful solution, we reiterate our expectation of a complete, verifiable and irreversible denuclearization through meaningful negotiations.

To this end it is instrumental to continue to exert maximum pressure on the DPRK, also through the thorough implementation of the sanction regime: the cohesion and determination of the international community remain essential.

Mr. Chair,

We are all aware that we have to face serious proliferation crises. At the same time, let me acknowledge that also in this complex field, the international community has demonstrated that peaceful and effective solutions can be found – and have to be found.

In this vein, let me remind the landmark success represented by the Joint Comprehensive Plan of Action (JCPoA) between the E3/EU+3 and Iran, as an extremely valuable achievement in the context of the international efforts aimed at strengthening the overall non-proliferation architecture in accordance with the NPT. Italy highly values the JCPoA and welcomes the confirmation by IAEA in successive reports of Iran's continued compliance with its provisions. We believe that the international community should continue to take every action to ensure that the JCPoA continues to provide benefits for all and remains a success story. The full implementation of the JCPoA and of all provisions of UN Security Council Resolution 2231 can foster international and regional security.

Mr. Chair,

Italy highly values the importance of nuclear-weapon-free zones for peace and security, in accordance with the 1999 UN Disarmament Commission guidelines. We therefore commend the contribution of existing nuclear-weapon-free zones to attaining these goals, and call on nuclear-weapon States to sign and ratify the relevant protocols of the Treaties establishing such zones.

Because of its geopolitical position, Italy is part of the wider Mediterranean area and very close to the Middle East. Our history is intimately connected to this Region. We are very sensitive

to developments in this context also from the point of view of disarmament and non-proliferation, and we follow them very closely.

We reaffirm our strong commitment to a successful outcome of the process leading to the full implementation of the 1995 NPT Review Conference Resolution on the Middle East, and the related practical steps endorsed by the 2010 NPT Review Conference.

Thus, Italy reiterates its support to the convening of a Conference on the establishment of a Middle East Zone Free of Nuclear Weapons and all other Weapons of Mass Destruction - to be attended by all States of the region on the basis of arrangements freely arrived at by them - as decided by the 2010 Review Conference.

In this perspective, we continue to call on all States in the region, which have not yet done so, to accede to the NPT, the Chemical Weapons Convention and the Biological and Toxin Weapons Convention, to sign and ratify the CTBT, and to conclude a Comprehensive Safeguards Agreement, the Additional Protocol and, as applicable, a modified Small Quantities Protocol with the IAEA.

Thank you, Mr. Chair.
